

SBW-18

SUBWOOFER UNIT

The Flepcher SBW-18 Subwoofer Unit can offer a highly-efficient acoustic enhancement that provides the needed edge to lift your sound reproduction system to the next level. As a needed enhancement to your pro-sound system, the SW Series works to improve the low-frequency response, stretching the system’s response to as low as 40Hz. Powerful and constructed with acoustically superior material that offers endless possibilities to your acoustic system.

Product Features

- Constructed with high quality low-frequency driver, and sports a 220 mm voice coil
- Powerful performance with single 800W output.
- Equipped with protection circuit that safely protected the frequency driver against excess power
- This unit is shielded from physical damage, thanks to its 18 gauge perforated, steel grill
