

# PS-2001

## PROJECTOR SPEAKER

The PS-2001 is a unidirectional sound projector speaker designed with high acoustic performance in mind. They are design to reproduce sound directly towards the area the speaker faces. Railway station, underground subway, warehouse, car park and sports stadium are a few ideal premises these units should be installed. This unidirectional quality gives the PS-2001 a good edge for installations in corridors and long zones either outdoor or indoor. In addition to its sleek design, it is also durable. Its body material made out of high impact polystyrene and ABS is able to withstand certain amount of impact strength. It is equipped with an orientable attachment bracket to ease up installation process.

### Technical Specifications

Rated Power	20W
Frequency Response	110Hz - 15kHz
SPL (1W, 1M) dB	92 ± 3dB
Cone Type	Full Range
Impedance	8Ω
Tapping Power	20/10/5W
Line Input	100V
Dimension (DxH)	∅ 179 x 248 mm
IP Rating	IP 55

### Physical

Material & Finish	HIPS; White
Grille	Powder Coated Aluminium Mesh
Speaker	6.5 inch
Weight	1.75kg
