

E-12

E-12M

E-18B

E-15

The E-Series is developed as a 2-way professional loudspeaker that offers crystal clear voice announcement and power-packed music reproduction. This series is well-fitted for various acoustic installations and events, thanks to their wide dispersion degree, superior sound quality and wide frequency range. All these components in each unit seem to work relentlessly to produce high-quality sound performance, even during extreme situation.

Higher reliability can be expected from these loudspeakers as they are engineered and infused with exceptional specifications that cater to the expectations of the pro-sound industry. This series boosts a line-up of loudspeaker that includes E-12, E-12M, E-15 while offering subwoofer solution in the form of E-18B.
