

HS-3002

RECTANGULAR HORN SPEAKER

Flepcher HS-3002, a horn speaker with IP 66 standard is suitable for both indoor and outdoor commercial sound system application for voice paging, background music and tone signalling distribution. It is capable of producing a wider frequency range with superior sound quality due to its woofer and tweeter driver units. The HS-3002 is optimized for outdoor installation with its sealed enclosure and weather resistant materials designed to withstand the harsh environmental condition. Each unit comes with a build-in 70/100V transformer with screw driver adjustable power taps. This horn speaker is also finished off with full range moisture resistant cone speaker, stainless-steel mounting hardware and a protective mesh grille.
