

## FLP-GS-630 NEW

### Outdoor Garden Speaker

Aesthetically built to blend in with the surrounding, the GS-630 is a garden speaker that is suitable for outdoor installation particularly gardens and parks. Do not be fooled by the look of this speaker, as it is capable of a frequency response of 80Hz-10kHz and a SPL of 92dB. The high range frequency response allows the GS-630 to operate in various systems. This reliable speaker is equipped with 70V/100V transformer which allows significant reduction in line losses on longer distance.

The 6.5 inch speaker runs on 15W and 30W to meet different applications. The glass reinforced plastics material and an IP 65 rating makes sure that the speaker is able to withstand harsh weather and impacts.
